Forecast for Friday 11 Mar 2022

Weather: Persistent hill fog and outbreaks of rain, this often patchy through the morning with a little brightness over Aberdeenshire. Heavier, persistent rain and summit sleet arriving from mid-afternoon, dying out towards midnight. Severe gales across the summits.

Chance of cloud-free hill tops above 800m: 10-20%.

Low Cloud and visibility: Very poor at height with cloud persistent above 600-700m. A few brief breaks are possible around late morning, mainly across northern Aberdeenshire hills. Cloud bases lowering to around 400m across southern ranges in the afternoon.

Met Office Aberdeen Meteorologist's View
Serious challenging conditions at height with a high chance of gusts taking you off your feet. Very poor navigation conditions. Gusts of 70 mph likely across higher summits.

Forecast for Saturday 12 Mar 2022
Weather: Low cloud with outbreaks of rain and summit snow early hours and to start the day. Rain turns to scattered showers with brighter spells through the morning. Cloud thickening in the evening with some light rain.

Maximum wind: South 30 gusting 45 mph easing to 15-20 gusting 30 mph by dawn. Southeast 25-30 gusting 40 mph late evening.

Chance of cloud-free hill tops above 800m: 10% in the morning, 30% in the afternoon.

Low Cloud and visibility: Generally very poor at height with limited if any brief cloud breaks in the morning, bases around 600-700m. More in the way of cloud breaks possible in the afternoon and evening, with bases around 800m.

Temperature: **Glens:** Plus 4 Celsius rising to 7 Celsius.
At 800m: Plus 1 or 2 Celsius.
Freezing level: 1000-1200m
